

Meet the Families

Activity Sheet

In Sprite's World, listen to each of the instrument families, and learn about their distinct characteristics.

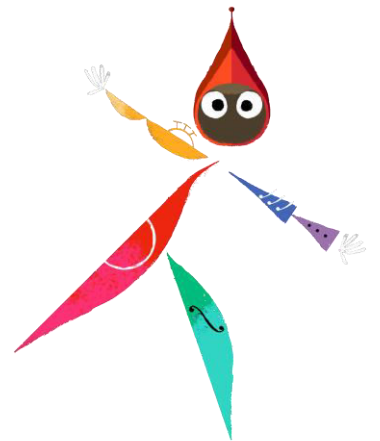

Animating Questions

What unique sounds do you hear in each family track?

Can you identify any specific instruments from each family?

Can you come up with your own name and symbol for each family?

When the orchestra comes together for the finale creating one, united family, what do you hear? What do you feel?

Activity

Each instrument family of the orchestra is made of different materials and played in different ways. When you listen to them, shut your eyes and think about how the varied sounds you hear, the feeling that creates, and what colors you see. Put those thoughts into the grid below in words or images. Or try using emojis for the feelings column.

	Sounds	Feelings	Colors
Strings			
Woodwinds			
Brass			
Percussion
